Gilgit, Pakistan • +92 355 5785621 • sardaralee.cloudlem@gmail.comgithub.com/sardaralii

---

## SUMMARY

Results-driven DevOps Engineer with over 4 years of hands-on experience in cloud platforms, CI/CD automation, and container orchestration. Demonstrated expertise in deploying scalable infrastructure, streamlining development pipelines, and implementing end-to-end DevOps solutions. Proficient in modern tooling across AWS, Docker, Kubernetes, and Terraform, with a strong commitment to infrastructure as code and continuous improvement.

---

## WORK EXPERIENCE

2023 – Present

### DevOps Engineer – Alicloud Nexus (Remote)

- Developed and maintained automated CI/CD pipelines using GitHub Actions.
- Deployed containerized applications using Docker and Kubernetes across cloud environments.
- Implemented monitoring solutions using Prometheus and Grafana to track system health and performance.
- Streamlined deployment processes and infrastructure provisioning using Terraform.

### DevOps Engineer – Cloudlem Office (Onsite)

2022 – 2023

- Collaborated with development teams to integrate DevOps practices into application lifecycle.
  - Managed infrastructure across hybrid cloud environments using infrastructure-as-code.
  - Automated repetitive tasks and enhanced system reliability through scripting and process optimization.
- 

## EDUCATION

### Bachelor of Science in Computer Science

- Bachelor of Science in Computer ScienceKarakoram International University.
- 

## TECHNICAL SKILLS

Skilled in building and managing cloud-native infrastructure on AWS, Azure, and GCP. Proficient with CI/CD tools like GitHub Actions, Jenkins, and GitLab CI. Hands-on experience with Docker, Kubernetes, and Terraform for container orchestration and infrastructure automation.

Strong scripting background in Bash and Python, with experience in monitoring using Prometheus, Grafana, and CloudWatch. Adept in Git-based workflows, secure networking (VPC, IAM, SSL), and server management across Linux and Windows environments.
